

ROAD TO THE MEMBERSHIP ASSEMBLY

Starting in early 2021, we engaged in a deep consultation process across our membership to identify key themes and goals for our alliance.

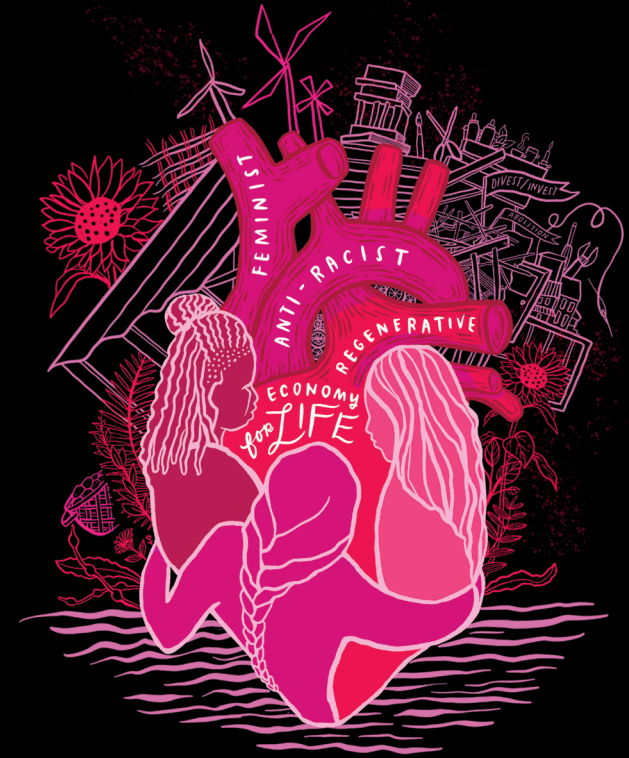

At our Membership Assembly, we brought more than 200 members and supporters from Turtle Island, Puerto Rico, Hawai'i, and Guam, along with international allies from Brazil, Haiti, Palestine, and Turkey to determine our best contribution to the movement in the moment ahead.

From seeding a political formation organizing school to divesting in harm and investing in care through the framework of a FAREconomy, our vision for the future is hopeful, bold, and unapologetically left.

In October 2022, members elected our Coordinating Committee to oversee and guide our political direction.

INTO FORMATION

GGJ Membership Assembly

In May 2022, we crafted working proposals with members of our Program Leadership Team, hosted by SouthWest Organizing Project in Albuquerque, for deliberation and approval at our full Assembly in October.

GGJ'S MEMBERSHIP ASSEMBLY is the highest decision-making body of our alliance, where each grassroots member organization discusses, debates, and ultimately votes to set our next political and program priorities. This gathering facilitates resource sharing, popular and political education, healing, and dialogue among members and national and international allies.

Together, we coalesced around four decision points (detailed on right) and engaged in rich conversations on building **United Fronts** to meet the political moment and how to **Move the Money** to resource the grassroots.

We will develop a **Political Formation School** over the next five years.

We reaffirmed our commitment to Black liberation and will create a committee to strengthen and develop **Black leadership and organizing** in our program work, as well as Black organizational engagement.

GGJ will develop a collective campaign to **divest from harm, and invest in care** over the next three years.

In **governance**, our Coordinating Committee will deepen relationships with working groups and member leaders, and a subcommittee will serve as our Board of Directors.
